September 21, 2018

ABOUT THE PLAN

This Strategic Plan for The Order of Australia Association (OAA) is for a five (5) year period from 2018-2023. Using the 2012 Strategic Plans as a starting document, this plan was developed over the period August 2017 to April 2018 by the OAA Strategy Committee in consultation with the National Board, Branch Chairs and Branch Office Bearers.

The plan’s purpose is to provide all stakeholders with a clear view of the OAA long-term development path. Annual business plans will set out the detailed steps we need to take in order to achieve our objectives. This Strategic Plan is a living document. The Board will review and update it annually prior to the Annual General Meeting (AGM) effective from 2020, and a new plan will be issued every five years.

Order of Australia

The Order of Australia is an order of chivalry established on 14 February 1975 by Elizabeth II, Queen of Australia. The Order recognises Australian citizens and other persons for achievement or meritorious service. Before the establishment of the Order, Australian citizen received British honours.

Awarded for: Achievement and merit in service to Australia or humanity

First induction: 14 April 1975

Eligibility: All living (at time of nomination) Australian citizens

Status: Currently constituted

Sovereign: Queen Elizabeth II

The Order: Each Branch or Regional Group focuses on promoting the Australian Honours System as a means of celebrating the achievements and contribution of outstanding Australians. The Branch committees are willing to provide speakers to address community and other groups on the significance of the Order.

The Association: The Association provides fellowship for members of the Order. Members of the Association participate in events recognising the Order and new recipients of awards. Association membership also provides opportunities for ongoing support to the community through initiatives like the Branch's projects.

Projects: Our community activity initiatives allow Association members to involve themselves in working with the community in a number of areas. The Branch Newsletter pages in The Order magazine or the Association website provide more details about these and other Branch initiatives.

Nominations: We understand that it is not always easy to recognise those who have made a significant difference in their community, to Australian life or to humanity at large. Additionally, not all individuals or organisations may have the experience to prepare a nomination of a citizen for an award. Where appropriate the Association should evaluate other award achievers for nomination for example Australian of the Year and State/Territory winners.

The Order of Australia Association Foundation:

As set out in the Constitution of the Foundation: The Foundation was formed on 29 April 1999 pursuant to a Deed of Trust settled by five Founders, being former Presidents of the Association, namely Rt Hon Sir Zelman Cowen PC, AK, GCMG, GCVO, KStJ; Hon Sir Charles Court AK, KCMG, OBE; Sir Eric Neal AC, CVO; Sir James Gobbo AC, CVO and General Sir Phillip Bennett AC, KBE, DSO, KStJ; who were desirous to establish a Foundation via a Public Trust Fund for certain public charitable purposes. It is intended that the Trust Fund will solicit and receive gifts not only from members of The Order of Australia Association, but also the public at large.

The Order of Australia Association Foundation Limited provides a national focus for the aim of The Order of Australia Association – "Love of and pride in Australian Citizenship". It does this by supporting promising young Australians from all walks of life to achieve their potential, by awarding Scholarships to students in their early years of tertiary study, for which scholarships would make a significant contribution to achieving their educational goals.

Hugh Morgan AC, Chairman of Directors, says "Our initial aim is to award five scholarships a year, however to maintain this number we need a permanent fund of \$5 million to provide the necessary annual income. I encourage all members of The Order of Australia Association to consider how they can help us reach this target."

The Order of Australia Association

The Association of approximately 8,100 members aims to foster love of and pride in Australian citizenship; to encourage awareness in the Australian community of Australia's history, traditions and culture; and to promote the development and maintenance of a constructive and positive sense of national unity among Australians.

Membership

Membership is part of the National Association, but for administrative and participation purposes, members are aligned to a state, territory or overseas branch. Members may also be aligned to a regional group in those states or territories that have them. Members who live in one state may choose to 'align' with another, particularly where a neighbouring regional group exists. However, only one state alignment is possible

Award List:

- Companion of the Order (**AC**). The Companion in the General Division is awarded for 'eminent achievement and merit to the highest degree to Australia and humanity at large'.
- Officer of the Order (**AO**). The Officer in the General Division is awarded for 'distinguished service of a high degree to Australia or humanity at large'.
- Member of the Order (**AM**). The Member of the Order of Australia in the General Division is awarded for 'service in a particular locality or field of activity or to a particular group'.
- Medal of the Order (**OAM**). The Medal in the General Division is awarded for 'service worthy of particular recognition'.

Executive Summary

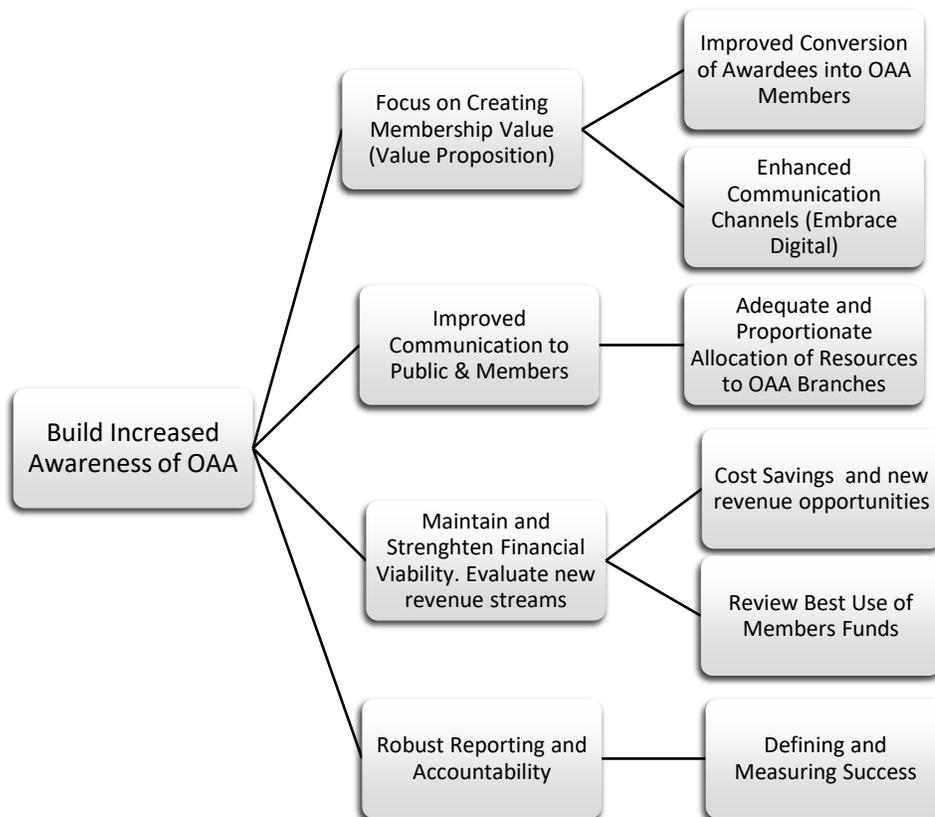

The 2017 Strategic Plan has been developed in response to the need to identify and respond to the changing environment that The Order of Australia (OAA) operates within.

The Australian population is expected to continue to grow and is tipped to reach 40 million by 2060. The ever increasing diversity within Australia by age, gender and culture makes the short to medium term future of OAA critical to developing and executing a strategy to maintain the prestige, awareness and value proposition of the award and associated membership.

The Strategic Plan has relied upon key driving documents and reports prepared by the OAA, these include:

- The Order of Australia Association – Membership and Viability Report (Agenda item February 2018)
- The Order of Australia Association Ltd – Strategic Plan (November 2017)
- Draft National Risk Register (Agenda item February 2018)
- OAA National Strategic Plan Implementation by Branches Questionnaire (December 2017))
- The Order of Australia Association Budget January – December 2018 (Draft not yet approved by the Board)

As highlighted through the Strategic Review, the key challenges and plans for the coming 12 – 36 month period include:

Strategic Review 2017

The 2017 Strategic Review documented specific goals that the board approved would be critical to executing the desired strategic direction of OAA. The goals effectively formed the building block underpinning “The Plan” going forward. In December 2017, a review was undertaken through a questionnaire sent to the Branches.

Goals and Strategies set and documented in 2017

GOAL 1 – ENCOURAGE PROMOTE AND SUPPORT DIVERSITY IN NOMINATIONS

The Association encourages diversity in age, gender and culture with nominations.

The Association will:

- Provide advice, strategies, connections and easy-to-use tech tools for members through Branches, Regional Groups (if appropriate) and the community working to increase the diversity of nominations;
- Have appropriate marketing material and a website that ensures the nomination process is streamlined for everyone to access and use, not just members: and
- Identify new opportunities for the Association to increase the diversity of nominations over the period of this plan and assess the risks associated with identified opportunities.

To address this goal, we will pursue two linked strategies:

- The first is to ensure appropriate marketing material for members to use when liaising with their communities; and
- The second is to establish and maintain links with numerous organisations outside the Order that also acknowledge community achievers.

Strategy 1.1 Develop marketing materials that are appropriate to educate our diverse communities

Strategic 1.2 Understand the work and nomination process of other organisations that acknowledge achievers

We will search, identify, and embrace collaboration with, all appropriate organisations that help us to achieve our goals to foster commitment to and pride in Australian citizenship.

GOAL 2 – LOOKING AFTER OUR MEMBERS

The Association attracts members to join, and encourages their participation in Association activities.

The Association must:-

Reflect the needs, expectations and diversity of its membership.

- The Association can only be attractive to its members if they see on-going value and benefits in being a member.

To address this goal, we will pursue two linked strategies:

- The first aims to attract Order awardees to join

The Association will develop a range of supportive membership policies and a diversified range of programs and activities that meet members' expectations and encourage them to actively participate in Association activities.

GOAL 3 – LOOKING AFTER OUR ASSOCIATION

- A prime focus on the support of the Order and the pursuit of those Association Objects which entail support for community.
- The Association's Foundation is an important part of our activities as are those activities developed and implemented at National, Branch and Regional levels.
